## RESEARCH SUMMARY

---

I'm a 3<sup>rd</sup>-year CS Ph.D. student interested in the intersection of Human-Centered NLP and Social Computing. My research focuses on evaluating, improving and examining the impact of generative AI models, emphasizing on attributes such as actionability, personalization, and potential risks for aligning them with human preferences and requirements. The goal of my research is to develop robust frameworks and methods for evaluating, improving and enhancing the safety and reliability of generative AI systems, contributing towards advancing state-of-the-art methods in Foundation Models and Human-centered AI.

## EDUCATION

---

**Ph.D., Computer Science** (*Advisor: Prof. Munmun De Choudhury*) 08/2022 - 05/2027 (Expected)  
Georgia Institute of Technology, Atlanta (GA), USA **Cumulative GPA: 4.0/4.0**

**B.Tech (Honors) & M.S, Computer Science and Engineering** 08/2015 - 07/2021  
International Institute of Information Technology, Hyderabad **Cumulative GPA: 9.04/10**

## PUBLICATIONS

---

Under-Review	<b>Reasoning Is Not All You Need: Examining LLMs for Multi-Turn Mental Health Conversations</b> (Paper Link) <i>Mohit Chandra*</i> , Siddharth Sriraman*, Harneet Singh Khanuja, Yiqiao Jin, Munmun De Choudhury (* Equal Contribution)
Under-Review	<b>Longitudinal Study on Social and Emotional Use of AI Conversational Agent</b> (Paper Link) <i>Mohit Chandra</i> , Javier Hernandez, Gonzalo Ramos, Mahsa Ershadi, Ananya Bhattacharjee, Judith Amores, Ebele Okoli, Ann Paradiso, Shahed Warreth, Jina Suh
Under-Review	<b>A Framework for Situating Innovations, Opportunities, and Challenges in Advancing Vertical Systems with Large AI Models</b> (Paper Link) <i>Gaurav Verma, Jiawei Zhou, Mohit Chandra, Srijan Kumar, Munmun De Choudhury</i>
ACM FAccT 2025	<b>From Lived Experience to Insight: Unpacking the Psychological Risks of Using AI Conversational Agents</b> (Paper Link) <i>Mohit Chandra</i> , Suchismita Naik, Denae Ford, Ebele Okoli, Munmun De Choudhury, Mahsa Ershadi, Gonzalo Ramos, Javier Hernandez, Ananya Bhattacharjee, Shahed Warreth, Jina Suh

## WORK EXPERIENCE

### Research Intern [Microsoft Research](#)

May 2024 - August 2024  
Redmond, WA, USA

- Interned in the Human Centered AI Experiences group (HCAIX) under the mentorship of Dr. Jina Suh and Dr. Javier Hernandez. Conducted two research studies (longitudinal study and focus group study) to understand and quantify the psychological impacts of generative AI conversational agents on users, aiming to enhance well-being through human-centered AI design.
- Worked on two publications focusing on – (1) development of AI-risk taxonomy and policy guidelines for researchers and developers, (2) conducting longitudinal experimental studying the impact of social and emotional use of AI Conversational Agent.

**Graduate Research Assistant (PhD Advisee)**  
**SocWeb Lab (Georgia Institute of Technology)**

January 2022 - Present  
*Atlanta, GA, USA*

- Working as a GRA under the supervision of Prof. Munmun De Choudhury. My current research project focuses on examining the efficacy of generative AI based mental health support interventions, with a focus on understanding their impact on the end user, limitations of the deployed system, and the potential for responsible integration into real-world support systems.
- Previously, I have worked on projects exploring the cross-lingual capabilities of LLMs, evaluating their effectiveness in mental health-related conversations, analyzing psychological risks associated with AI use, investigating hallucinations in LLM responses, and conducting social media content analysis. My past works have led to multiple top-tier publications.

**Software Engineer (ML)**  
**Microsoft, IDC**

July 2020 - August 2022  
*Hyderabad, India*

- Developed and shipped language models for Automated Speech Recognition Systems for Indic Languages in *Hindi, Bengali, Malayalam*. The new shipped models achieved an average reduction of 5-10% WERR.
- Developed and maintained the end-to-end pipeline for the tech segment of Bing.com. Developed a novel pipeline framework to ingest new QnA related to tech trivia in an automated manner. The new pipeline improved the coverage numbers by 7M in DSQ and 180K in Shown DAU.

**Research Associate**  
**Georgia Institute of Technology**

June 2021 - June 2022  
*Remote*

- Worked as a Research Associate under the supervision of Prof. Munmun De Choudhury. My work aimed at examining the effect of the COVID-19 pandemic on employees at their respective workplaces.
- Specifically worked on developing a predictive framework based on employee reviews that predicts whether an organization will be considered a good place to work in the post-COVID-19 era.

**Research Assistant**  
**Precog Research Group (IIIT-Hyderabad)**

December 2018 - December 2020  
*Hyderabad, India*

- Worked as an RA under the supervision of Prof. Ponnurangam Kumaraguru. The work focused on the topic of detection and analysis of hate speech on social media platforms.
- Specifically, worked on three publications that included works on general-purpose abuse detection, multimodal Antisemitism detection, and a large-scale quantitative study analyzing Islamophobia on Twitter.

**Open Source Developer**  
**Sympy (Python Software Foundation)**

September 2016 - May 2017  
*Hyderabad, India*

- Worked on several modules related to core Mathematics and Physics areas such as Vector Mathematics, Matrices, Combinatorics, and Integration. Added modules for Directional Derivatives and simplification of Gamma functions.

## TEACHING EXPERIENCE

---

**Graduate Teaching Assistant (Artificial Intelligence CS 6601)**  
**Georgia Institute of Technology**

January 2023 - May 2023  
*Atlanta, GA*

- As TA Instructor: Delivered lectures twice a week focusing on the basics of Natural Language Processing to a class comprising graduate and undergraduate students.
- As Tutor: Hosted office hours, provided one-on-one tutoring, and graded exam papers.

**Teaching Assistant (Design and Analysis of Software Systems)**  
**IIIT Hyderabad**

Jan 2020 - May 2020  
*Hyderabad, India*

- As Head TA: Co-designed the course structure with the instructor. Additionally, I handled communication with 50+ industry clients for projects.
- As Tutor: Delivered tutorials, hosted office hours, created and graded assignments and examination papers.

**Teaching Assistant (Operating Systems)**  
**IIIT Hyderabad**

August 2019 - December 2019  
*Hyderabad, India*

- As Head TA: Delivered tutorial lectures covering practical aspects of basic operating system concepts.
- As Tutor: Hosted office hours, created and graded assignments and examination papers.

**Teaching Assistant (Distributed Systems)**  
**IIIT Hyderabad**

January 2019 - May 2019  
*Hyderabad, India*

- As Tutor: Delivered tutorials, hosted office hours, created and graded assignments and examination papers.

**Teaching Assistant (Introduction to AI)**  
**IIIT Hyderabad**

January 2018 - December 2018  
*Hyderabad, India*

- As Tutor: Delivered tutorials, hosted office hours, created and graded assignments and examination papers.

## SKILLS

---

<b>Programming</b>	Python, C, C++, C#, SQL, HTML/CSS, Javascript, Pytorch, Flask, R, Dedoose, L <sup>A</sup> T <sub>E</sub> X, Git, Qualtrics
<b>Subjects/Domains</b>	Natural Language Processing, Deep Learning, Social Computing, Computational Social Science, Data Science, Web Development, Qualitative Analysis, Conducting Survey Studies, Conducting Longitudinal Study

## AWARDS & RECOGNITIONS

---

2025	Selected as one of 100 Computer Science students worldwide to attend the 12 <sup>th</sup> Heidelberg Laureate Forum 2025.
2025	Awarded Runner-up in the Graduate Poster Symposium 2025.
2024	One among 5 scholarship recipients from Georgia Tech to attend the ACM Tapia Conference 2024.
2019	Dean's Research award for publishing a paper in a top-tier journal
2017-2019	Dean's Merit List award for Academic Excellence

## INVITED TALKS

---

February, 2025	Computational Methods for Social Computing. CS 6474/CS 4803 (Social Computing)
January, 2025	Psychological Impact of Conversational AI Use. AI & Society Research Task, Microsoft Research
February, 2024	Computational Methods for Social Computing. CS 6474/CS 4803 (Social Computing)

## PRESS COVERAGE

---

May, 2025	AI Chatbots Aren't Experts on Psych Med Reactions — Yet [Georgia Institute of Technology]
May, 2024	Chatbots Are Poor Multilingual Healthcare Consultants, Study Finds. [Georgia Institute of Technology]
April, 2024	Chatbots Struggle to Answer Medical Questions in Widely Spoken Languages. [Scientific American]
April, 2024	Chatbots making mistakes when translating medical advice in some languages. [The World]
June, 2023	Flexible, Supportive Company Culture Makes For Better Remote Work. College of Computing Press. [Georgia Institute of Technology]

## SERVICE

---

<b>Reviewing</b>	ICWSM 2021, EMNLP 2022, ICWSM 2024, CSCW 2024, CHI 2025, WWW 2025, EMNLP 2025
<b>Organizing</b>	HCI Southeast Meetup 2024
<b>Mentoring</b>	<i><b>Graduate Students:</b></i> Siddharth Sriraman, Anush Mattapalli, Harneet Singh Khanuja, Irene Stephen, Malav Patel, Eesha Dutta <i><b>Undergraduate Students:</b></i> Aarya Doshi, Benjamin Levy, Mei Li, Nicholas Chang, Shradha Sehgal, Manvith Reddy, Dheeraj Pailla, Himanshu Bhatia, Aadil Mehdi Sanchawala, Ashwin Pathak

## LEADERSHIP

---

<b>Coordinator, Alumni Cell IIIT-H (2017-2019)</b>	Responsible for organizing events, mentoring sessions and managing alumni-student events along with alumni affairs.
<b>Coordinator, Content Team (Felicity 2018)</b>	Responsible for creating content to promote various events of the college's annual fest "Felicity".
