RESEARCH SUMMARY

I'm a 3rd-year CS Ph.D. student interested in the intersection of Human-Centered AI and Social Computing. I use computational methods from NLP and theoretical frameworks from Social Computing to analyze how consumption of low-quality information on online platforms and Generative AI technologies impacts human behavior and perpetuates harms, including bias and inequity. The overarching goal of my research is to empower individuals and communities by providing data-informed guidance to the policymakers and contributing towards creating fairer and more robust technologies.

EDUCATION

Ph.D., Computer Science (*Advisor: Prof. Munmun De Choudhury*) 08/2022 - 05/2027 (Expected)
Georgia Institute of Technology, Atlanta (GA), USA **Cumulative GPA: 4.0/4.0**

B.Tech (Honors) & M.S, Computer Science and Engineering 08/2015 - 07/2021
International Institute of Information Technology, Hyderabad **Cumulative GPA: 9.04/10**

WORK EXPERIENCE

Research Intern May 2024 - August 2024
Microsoft Research *Redmond, WA, USA*

- Interned in the Human Centered AI Experiences group (HCAIX) under the mentorship of Dr. Jina Suh and Dr. Javier Hernandez. Conducted two research studies (longitudinal study and focus group study) to understand and quantify the psychological impacts of generative AI conversational agents on users, aiming to enhance well-being through human-centered AI design.

Graduate Research Assistant (PhD Advisee) January 2022 - Present
SocWeb Lab (Georgia Institute of Technology) *Atlanta, GA, USA*

- Working as a GRA under the supervision of Prof. Munmun De Choudhury. My current research projects focus on understanding the different aspects of information inequity arising from the use of Generative AI and social media platforms especially in general healthcare and mental health domain.
- Currently working on benchmarking large language models for mental health case-studies. Previously worked on publications focusing on cross-lingual evaluation framework for LLMs for healthcare queries and cross-topic misinformation analysis through a causal framework.

Software Engineer (ML) July 2020 - August 2022
Microsoft, IDC *Hyderabad, India*

- Developed and shipped language models for Automated Speech Recognition Systems for Indic Languages in *Hindi, Bengali, Malayalam*. The new shipped models achieved an average reduction of 5-10% WERR.
- Developed and maintained the end-to-end pipeline for the tech segment of Bing.com. Developed a novel pipeline framework to ingest new QnA related to tech trivia in an automated manner. The new pipeline improved the coverage numbers by 7M in DSQ and 180K in Shown DAU.

Research Associate June 2021 - June 2022
Georgia Institute of Technology *Remote*

- Worked as a Research Associate under the supervision of Prof. Munmun De Choudhury. My work aimed at examining the effect of the COVID-19 pandemic on employees at their respective workplaces.
- Specifically worked on developing a predictive framework based on employee reviews that predicts whether an organization will be considered a good place to work in the post-COVID-19 era.

Research Assistant December 2018 - December 2020
Precog Research Group (IIIT-Hyderabad) *Hyderabad, India*

- Worked as an RA under the supervision of Prof. Ponnurangam Kumaraguru. The work focused on the topic of detection and analysis of hate speech on social media platforms.
- Specifically, worked on three publications that included works on general-purpose abuse detection, multimodal Antisemitism detection, and a large-scale quantitative study analyzing Islamophobia on Twitter.

Open Source Developer

Sympy (Python Software Foundation)

September 2016 - May 2017

Hyderabad, India

- Worked on several modules related to core Mathematics and Physics areas such as Vector Mathematics, Matrices, Combinatorics, and Integration. Added modules for Directional Derivatives and simplification of Gamma functions.

TEACHING EXPERIENCE

Graduate Teaching Assistant (Artificial Intelligence CS 6601)

January 2023 - May 2023

Georgia Institute of Technology

Atlanta, GA

- As TA Instructor: Delivered lectures twice a week focusing on the basics of Natural Language Processing to a class comprising graduate and undergraduate students.
- As Tutor: Hosted office hours, provided one-on-one tutoring, and graded exam papers.

Teaching Assistant (Design and Analysis of Software Systems)

Jan 2020 - May 2020

IIIT Hyderabad

Hyderabad, India

- As Head TA: Co-designed the course structure with the instructor. Additionally, I handled communication with 50+ industry clients for projects.
- As Tutor: Delivered tutorials, hosted office hours, created and graded assignments and examination papers.

Teaching Assistant (Operating Systems)

August 2019 - December 2019

IIIT Hyderabad

Hyderabad, India

- As Head TA: Delivered tutorial lectures covering practical aspects of basic operating system concepts.
- As Tutor: Hosted office hours, created and graded assignments and examination papers.

Teaching Assistant (Distributed Systems)

January 2019 - May 2019

IIIT Hyderabad

Hyderabad, India

- As Tutor: Delivered tutorials, hosted office hours, created and graded assignments and examination papers.

Teaching Assistant (Introduction to AI)

January 2018 - December 2018

IIIT Hyderabad

Hyderabad, India

- As Tutor: Delivered tutorials, hosted office hours, created and graded assignments and examination papers.

SKILLS

Programming	Python, C, C++, C#, SQL, HTML/CSS, Javascript, Pytorch, Flask, R, Dedoose, L ^A T _E X, Git
Subjects/Domains	Natural Language Processing, Deep Learning, Social Computing, Computational Social Science, Data Science, Web Development, Qualitative Analysis, Conducting Survey Studies, Conducting Longitudinal Study

AWARDS & RECOGNITIONS

2024	One among five scholarship recipients from Georgia Tech to attend the ACM Tapia Conference 2024
2019	Dean's Research award for publishing a paper in a top-tier journal
2017-2019	Dean's Merit List award for Academic Excellence

INVITED TALKS

February, 2024 Computational Methods for Social Computing. CS 6474/CS 4803 (Social Computing)

PRESS COVERAGE

May, 2024 Chatbots Are Poor Multilingual Healthcare Consultants, Study Finds. [Georgia Institute of Technology]
April, 2024 Chatbots Struggle to Answer Medical Questions in Widely Spoken Languages. [Scientific American]
April, 2024 Chatbots making mistakes when translating medical advice in some languages. [The World]
June, 2023 Flexible, Supportive Company Culture Makes For Better Remote Work. College of Computing Press. [Georgia Institute of Technology]

SERVICE

Reviewing ICWSM 2021, EMNLP 2022, ICWSM 2024, CSCW 2024
Organizing HCI Southeast Meetup 2024
Mentoring *Graduate Students:* Siddharth Sriraman, Anush Mattapalli, Malav Patel, Eesha Dutta
Undergraduate Students: Nicholas Chang, Shradha Sehgal, Manvith Reddy, Dheeraj Pailla, Himanshu Bhatia, Aadil Mehdi Sanchawala, Ashwin Pathak

LEADERSHIP

Coordinator, Alumni Cell IIIT-H (2017-2019) Responsible for organizing events, mentoring sessions and managing alumni-student events along with alumni affairs.
Coordinator, Content Team (Felicity 2018) Responsible for creating content to promote various events of the college's annual fest "Felicity".
