RESEARCH SUMMARY

I'm a final-year CS Ph.D. candidate interested in the intersection of Human-Centered NLP and Social Computing. My research establishes methodologies and frameworks for assessing, operationalizing, and integrating dimensions of human lived experiences within generative AI systems for high-stakes domains such as clinical mental healthcare and social and emotional use-cases of AI. I tackle these challenges using a multi-pronged approach consisting of three line of works: (1) Developing computational/theoretical methodologies and metrics for assessing the presence of human lived experiences within gen AI systems, (2) Operationalizing frameworks for capturing stakholders' insights and synthetic data generation, and (3) Integrating stakeholder insights into model alignment and response generation during post-training and inference-time.

EDUCATION

Ph.D., Computer Science (*Advisor: Prof. Munmun De Choudhury*) 08/2022 - 08/2027 (Expected)

Georgia Institute of Technology, Atlanta (GA), USA **Cumulative GPA: 4.0/4.0**

B.Tech (Honors) & M.S, Computer Science and Engineering 08/2015 - 07/2021

International Institute of Information Technology, Hyderabad **Cumulative GPA: 9.04/10**

PUBLICATIONS

Under Review — **Aligning with Lived Experience: Heterogeneous Benefits of Fine Tuning in Mental Health Support Generation**
Mohit Chandra*, Nabin Kim, Eli Min, Aamogh Sawant, Tanmay Sutar Munmun De Choudhury*

ACL 2026 — **Reasoning Is Not All You Need: Examining LLMs for Multi-Turn Mental Health Conversations**(Paper Link)
Mohit Chandra*, Siddharth Sriraman*, Harneet Singh Khanuja, Yiqiao Jin, Munmun De Choudhury (* Equal Contribution)*

JMIR Human Factors — **User Perceptions of an LLM-Based Chatbot for Cognitive Reappraisal of Stress: Feasibility Study**(Paper Link)
Ananya Bhattacharjee, Jina Suh, ***Mohit Chandra****, Javier Hernandez*

Under-Review — **Longitudinal Study on Social and Emotional Use of AI Conversational Agent** (Paper Link)
Mohit Chandra*, Javier Hernandez, Gonzalo Ramos, Mahsa Ershadi, Ananya Bhattacharjee, Judith Amores, Ebele Okoli, Ann Paradiso, Shahed Warreth, Jina Suh*

AAAI ICWSM 2026 — **MedHalu: Hallucinations in Healthcare Queries by Large Language Models** (Paper Link)
Vibhor Agarwal, Yiqiao Jin, ***Mohit Chandra****, Munmun De Choudhary, Nishanth Sastry, Srijan Kumar*

NAACL 2025 — **Lived Experience Not Found: LLMs Struggle to Align with Experts on Addressing Adverse Drug Reactions from Psychiatric Medication Use** (Paper Link)

WORK EXPERIENCE

Applied Scientist Intern May 2026 - August 2026
Microsoft *Redmond, WA, USA*

- Interned within the Copilot X Outlook Group under the mentorship of Dr. Alex Williams, Dr. Hyeonsu Kang, and Dr. Vivian Lai. My work research focused on the future of safety and trust in AI-driven email experiences using scalable red-teaming.

- I developed a enterprise email agent red-teaming taxonomy and a novel 2-phase attack generation and evaluation pipeline to evaluate frontier model for proactive enterprise email tasks.

Applied Scientist Intern September 2025 - January 2026
Amazon Science *Bellevue, WA, USA*

- Interned within the Applied AI team at Amazon under the mentorship of Dr. Francesco Carbone and Hitesh Arora. My project focused on improving the efficiency of Agentic AI systems used for structured data and text understanding scenarios.
- Developed a query and topic agnostic hybrid-LLM routing protocol to route agentic tool calling queries based on cost, latency and performance constraints provided by the user.

Research Intern May 2024 - August 2024
Microsoft Research *Redmond, WA, USA*

- Interned in the Human Centered AI Experiences group (HCAIX) under the mentorship of Dr. Jina Suh and Dr. Javier Hernandez. Conducted two research studies (longitudinal study and focus group study) to understand and quantify the psychological impacts of generative AI conversational agents on users, aiming to enhance well-being through human-centered AI design.
- Worked on two publications focusing on – (1) development of AI-risk taxonomy and policy guidelines for researchers and developers, (2) conducting longitudinal experimental studying the impact of social and emotional use of AI Conversational Agent.

Graduate Research Assistant (PhD Advisee) January 2022 - Present
SocWeb Lab (Georgia Institute of Technology) *Atlanta, GA, USA*

- Working as a GRA under the supervision of Prof. Munmun De Choudhury. My current research project focuses on examining the efficacy of generative AI based mental health support interventions, with a focus on understanding their impact on the end user, limitations of the deployed system, and the potential for responsible integration into real-world support systems.
- Previously, I have worked on projects exploring (1) cross-lingual capabilities of LLMs, (2) evaluating alignment with psychiatrists in mental health-related conversations, (3) generating synthetic multi-turn conversations, (4) analyzing psychological risks associated with AI use, (5) investigating hallucinations in LLM responses, and (6) conducting social media content analysis. My past works have led to multiple top-tier publications.

Software Engineer (ML) July 2020 - August 2022
Microsoft, IDC *Hyderabad, India*

- Developed and shipped language models for Automated Speech Recognition Systems for Indic Languages in *Hindi, Bengali, Malayalam*. The new shipped models achieved an average reduction of 5-10% WERR.
- Developed and maintained the end-to-end pipeline for the tech segment of Bing.com. Developed a novel pipeline framework to ingest new QnA related to tech trivia in an automated manner. The new pipeline improved the coverage numbers by $7M$ in DSQ and $180K$ in Shown DAU.

Research Associate June 2021 - June 2022
Georgia Institute of Technology *Remote*

- Worked as a Research Associate under the supervision of Prof. Munmun De Choudhury. My work aimed at examining the effect of the COVID-19 pandemic on employees at their respective workplaces.
- Specifically worked on developing a predictive framework based on employee reviews that predicts whether an organization will be considered a good place to work in the post-COVID-19 era.

Research Assistant December 2018 - December 2020
Precog Research Group (IIIT-Hyderabad) *Hyderabad, India*

- Worked as an RA under the supervision of Prof. Ponnurangam Kumaraguru. The work focused on the topic of detection and analysis of hate speech on social media platforms.
- Specifically, worked on three publications that included works on general-purpose abuse detection, multimodal Antisemitism detection, and a large-scale quantitative study analyzing Islamophobia on Twitter.

Open Source Developer September 2016 - May 2017
Sympy (Python Software Foundation) *Hyderabad, India*

- Worked on several modules related to core Mathematics and Physics areas such as Vector Mathematics, Matrices, Combinatorics, and Integration. Added modules for Directional Derivatives and simplification of Gamma functions.

TEACHING EXPERIENCE

Graduate Teaching Assistant (Artificial Intelligence CS 6601) January 2023 - May 2023
Georgia Institute of Technology *Atlanta, GA*

- As TA Instructor: Delivered lectures twice a week focusing on the basics of Natural Language Processing to a class comprising graduate and undergraduate students.
- As Tutor: Hosted office hours, provided one-on-one tutoring, and graded exam papers.

Teaching Assistant (Design and Analysis of Software Systems) Jan 2020 - May 2020
IIIT Hyderabad *Hyderabad, India*

- As Head TA: Co-designed the course structure with the instructor. Additionally, I handled communication with 50+ industry clients for projects.
- As Tutor: Delivered tutorials, hosted office hours, created and graded assignments and examination papers.

Teaching Assistant (Operating Systems) August 2019 - December 2019
IIIT Hyderabad *Hyderabad, India*

- As Head TA: Delivered tutorial lectures covering practical aspects of basic operating system concepts.
- As Tutor: Hosted office hours, created and graded assignments and examination papers.

Teaching Assistant (Distributed Systems) January 2019 - May 2019
IIIT Hyderabad *Hyderabad, India*

- As Tutor: Delivered tutorials, hosted office hours, created and graded assignments and examination papers.

Teaching Assistant (Introduction to AI) January 2018 - December 2018
IIIT Hyderabad *Hyderabad, India*

- As Tutor: Delivered tutorials, hosted office hours, created and graded assignments and examination papers.

SKILLS

Programming	Python, C, C++, C#, SQL, HTML/CSS, Javascript, Pytorch, Flask, R, Dedoose, LaTeX, Git, Qualtrics
Subjects/Domains	Natural Language Processing, Deep Learning, Social Computing, Computational Social Science, Data Science, Web Development, Qualitative Analysis, Conducting Survey Studies, Conducting Longitudinal Study

AWARDS & RECOGNITIONS

2025	Received the Google Academic Research Award 2025 as a collaborator for research on safer AI companionship.
2025	Selected as one of 100 Computer Science students worldwide to attend the 12th Heidelberg Laureate Forum 2025.
2025	Awarded Runner-up in the CoC Graduate Poster Symposium 2025.
2024	One among 5 scholarship recipients from Georgia Tech to attend the ACM Tapia Conference 2024.
2019	Dean's Research award for publishing a paper in a top-tier journal
2017-2019	Dean's Merit List award for Academic Excellence

SERVICE

Reviewing	ICWSM 2021, EMNLP 2022, ICWSM 2024, CSCW 2024, CHI 2025, WWW 2025, EMNLP 2025, AACL 2025, EMNLP 2026
Organizing	HCI Southeast Meetup 2024
Mentoring	***Graduate Students***: Siddharth Sriraman, Anush Mattapalli, Harneet Singh Khanuja, Irene Stephen Komal, Nabin Kim, Malav Patel, Eesha Dutta, Eli Min, Tanmay Sutar, Rahul Garg, Nahush Kumta ***Undergraduate Students***: Aarya Doshi, Benjamin Levy, Mei Li, Nicholas Chang, Shradha Sehgal, Manvith Reddy, Dheeraj Pailla, Himanshu Bhatia, AadilMehdi Sanchawala, Ashwin Pathak, Aamogh Sawant

INVITED TALKS AND WORKSHOPS

May, 2026	Workshop on Large Language Models for Public Health. Georgia Southern University
March, 2026	Computational Methods for Social Computing. CS 6474/CS 4803 (Social Computing)
February, 2025	Computational Methods for Social Computing. CS 6474/CS 4803 (Social Computing)
January, 2025	Psychological Impact of Conversational AI Use. AI & Society Research Talk, Microsoft Research
February, 2024	Computational Methods for Social Computing. CS 6474/CS 4803 (Social Computing)

PRESS COVERAGE

May, 2025	AI Chatbots Aren't Experts on Psych Med Reactions — Yet [Georgia Institute of Technology]
May, 2024	Chatbots Are Poor Multilingual Healthcare Consultants, Study Finds. [Georgia Institute of Technology]
April, 2024	Chatbots Struggle to Answer Medical Questions in Widely Spoken Languages. [Scientific American]
April, 2024	Chatbots making mistakes when translating medical advice in some languages. [The World]
June, 2023	Flexible, Supportive Company Culture Makes For Better Remote Work. College of Computing Press. [Georgia Institute of Technology]

LEADERSHIP

Graduate School Application Mentor — Mentored 20+ students in the past three years for graduate school applications through 1:1 sessions.

Coordinator, Alumni Cell IIIT-H (2017-2019)	Responsible for organizing events, mentoring sessions and managing alumni-student events along with alumni affairs.
Coordinator, Content Team (Felcity 2018)	Responsible for creating content to promote various events of the college's annual fest "Felicity".
